Elementary and Secondary Education Act: 1965

Poverty is the single greatest factor limiting student achievement

Data Connecting Poverty and Student Achievement: 2013 NAEP Data

4

No Child Left Behind: 2001

Every Student Succeeds Act: 2015

THE BIPARTISAN BILL TO FIX NO CHILD LEFT BEHIND WILL HELP

ENSURE OPPORTUNITY FOR ALL OF AMERICA'S STUDENTS:

- ✓ Holds all students to high academic standards
- ✓ Prepares all students for success in college and career
- ✓ Provides more kids access to high-quality preschool
- ✓ Guarantees steps are taken to help students, and their schools, improve
- ✓ Reduces the burden of testing while maintaining annual information for parents and students
- ✓ Promotes local innovation and invests in what works

#LeadOnEducation

The only premise we went into the project with was this simple truth:

***“We all learn in a variety of ways.
Our students learn in a variety of ways.
They should be able to demonstrate
readiness in a variety of ways.”***

**Students are more than
just the number they earn
on a standardized test.**

AASA

THE SCHOOL SUPERINTENDENTS ASSOCIATION

www.aasa.org | www.redefiningready.org

The Benchmarks are scores on the ACT subject-area tests that represent the level of achievement required for students to have a 50% chance of obtaining a B or higher or about a 75% chance of obtaining a C or higher in corresponding credit-bearing first-year college courses. These college courses include English composition, college algebra, introductory social science courses, and biology. Based on a sample of 214 institutions and more than 230,000 students from across the United States, the Benchmarks are median course placement values for these institutions and as such represent a typical set of expectations. The ACT College Readiness Benchmarks are:

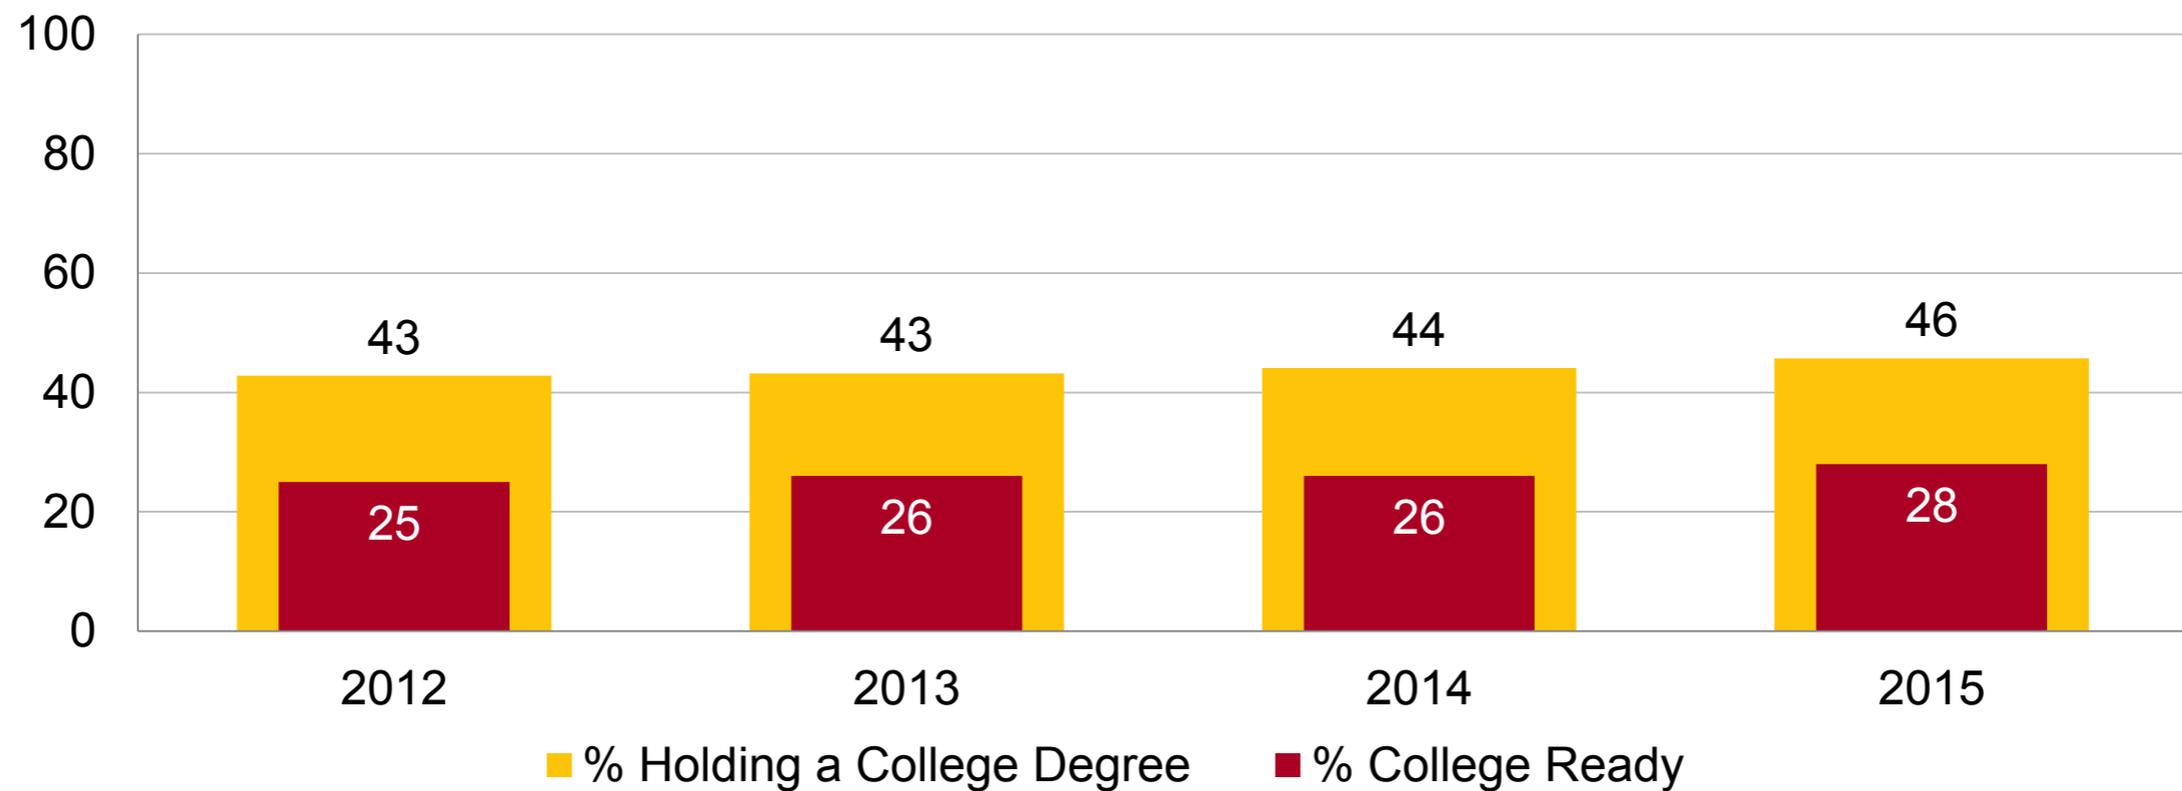

College Course	ACT Subject-Area Test	ACT Explore [®] Benchmark Grade 8	ACT Explore [®] Benchmark Grade 9	ACT Plan [®] Benchmark	The ACT [®] Benchmark
English Composition	English	13	14	15	18
College Algebra	Mathematics	17	18	19	22
Social Sciences	Reading	16	17	18	22
Biology	Science	18	19	20	23

According to ACT, out of 1.9 million test takers, only 40 percent of the high school graduating class was deemed college ready by meeting three or four of the ACT College Readiness Benchmarks.

Only 28 percent met all four benchmarks.

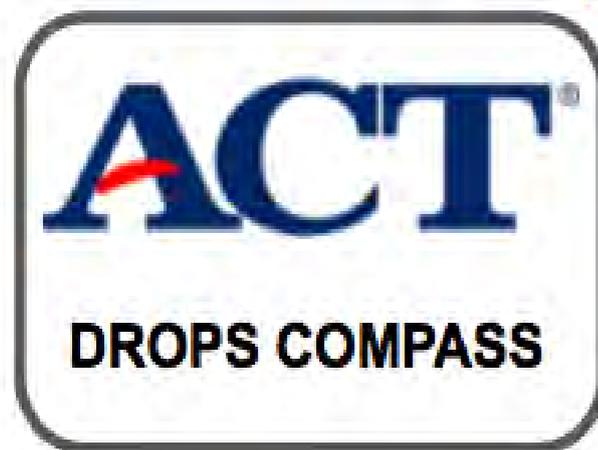

Readiness Gap

College Readiness vs. Degree Attainment

U.S. Department of Education, National Center for Education Statistics (2016). The Condition of Education 2016 (NCES 2016-144), Educational Attainment of Young Adults; Students meeting all 4 college readiness ACT benchmarks: https://www.act.org/content/dam/act/unsecured/documents/CCCR_National_2016.pdf

1/3 of students (millions) who placed into remedial classes due to their Compass or Accuplacer scores could have passed college-level classes with a grade of B or better (2012) Inside Higher Ed.

ReDefining Ready = HB5729 Transition Courses

Establishing statewide PORTABILITY

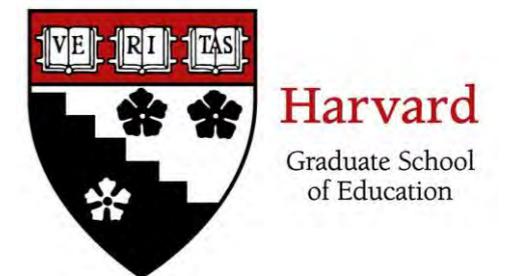

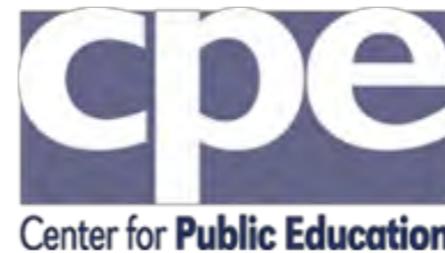

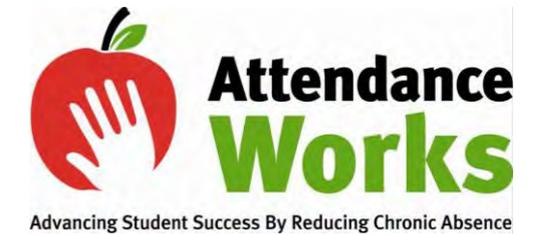

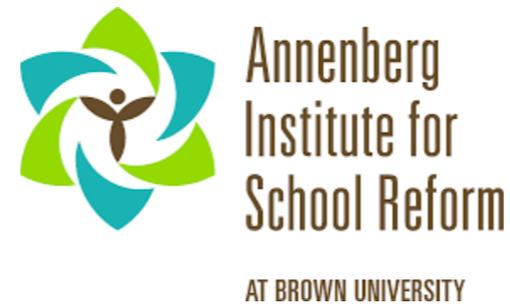

We looked at the research from leading educational institutions and research organizations to develop a new multi-metric, research-based definition of College and Career Ready.

www.RedefiningReady.org

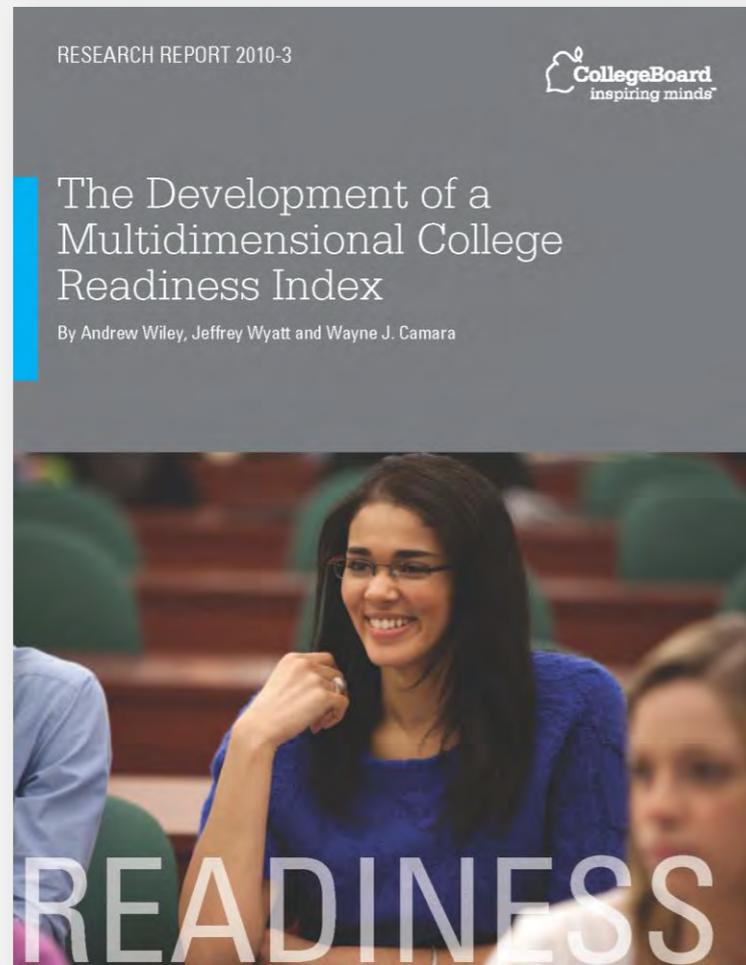

#RedefiningReady

A report called *Predictors of Postsecondary Success* published by the *American Institutes for Research* in 2013 highlighted multiple indicators for success, including less than ten percent of absences, dual enrollment participation, 3 or higher on AP exams and FAFSA completion, among others.

The College Board released a research report in 2010 called *The Development of a Multidimensional College Readiness Index* which emphasized the “need for multiple measures of readiness including participation in Advanced Placement courses and exams as an indicator of Academic Rigor and component of college readiness.”

AP success is used as a widely accepted indicator of college readiness in university's entrance applications and is also used to rate and rank the rigor/excellence of high schools for nationally-published lists by news organizations like *U.S. News and World Report*.

Both the *College Board* and *ACT* have released extensive research showing that these subject level benchmarks directly correlate to corresponding grades in college courses.

“82 percent of high schools report that students are enrolled in dual credit courses” – this must be considered in our college readiness indicators.

Dual Credit

The National Center for Postsecondary Research which looked at data from Florida schools found that dual enrollment students were statistically significantly more likely to persist in college to a second semester and earn a higher college GPA.

A study out of *Brown University* found success in Algebra II in high school is linked to both college enrollment and bachelor's degree attainment. Courses students take in high school are more predictive of (college) success than family income and race.

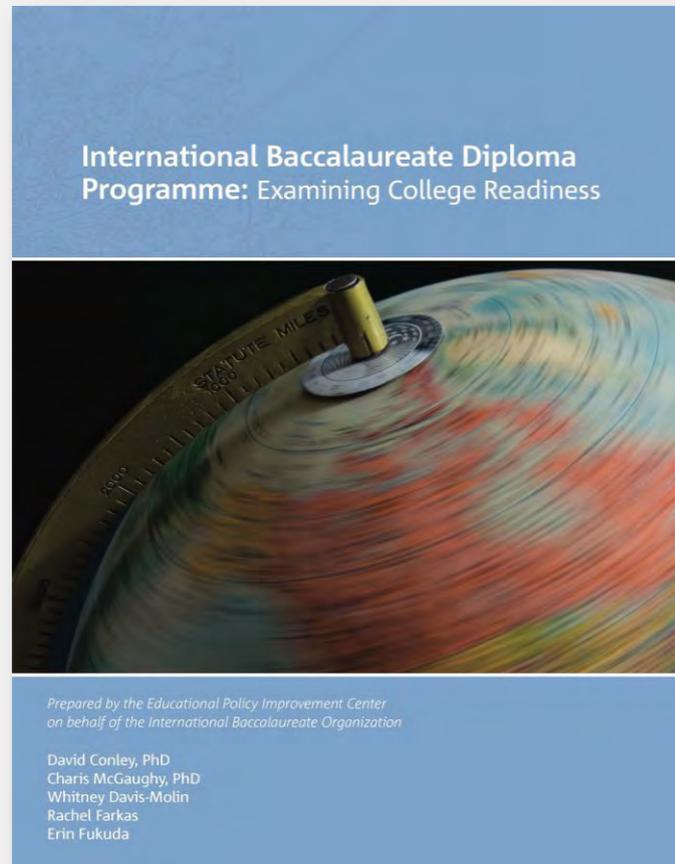

BROWN

And another study from *The Diploma Project* found Algebra II is the benchmark course for students aspiring to highly paid professional jobs or well-paid, white-collar jobs.

A study by the *Educational Policy Improvement Center (EPIC)* published in May 2014 used student data from the University of Oregon to determine that students who participated in the *International Baccalaureate Diploma Programme* in high school were more likely than those who did not to earn postsecondary degrees, persist over two years and earn higher GPAs in their first two years of college.

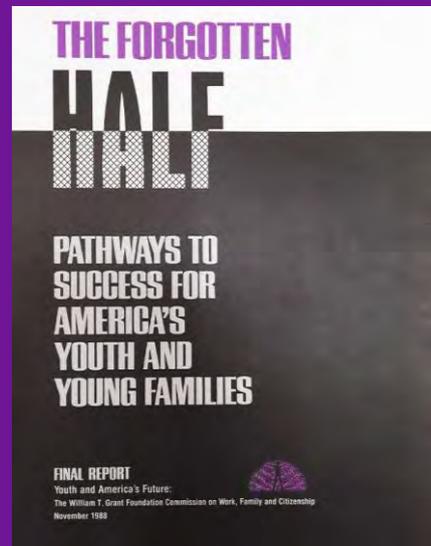

**Up until now, there has been limited data
on measurable career-readiness indicators...**

...that changes today.

William T. Grant
FOUNDATION

In 1988, the *William T. Grant Foundation* published a report that called the then 20 million non-college bound youth “the forgotten half,” and warned:

“they are in danger of being caught in a massive bind that can deny them full participation in our society.”

In a report by *Attendance Works*, absenteeism influences not just chances for graduating but also for completing college.

A new analysis of Rhode Island data found that “only **11 percent of the chronically absent students who graduated from high school made it to a second year of college, compared to **51 percent** of students with better high school attendance records.”**

Community service to fulfill class requirements significantly enhanced the average odds of college graduation by 22 percentage points.

Alberto Davila and Marie T. Mora (2007) An Assessment of Civic Engagement and Educational Attainment

The research we studied about college and career readiness led us to the following indicators...

Redefining Ready!

College Ready Indicators

Students are **College Ready** if they meet either the academic or standardized testing benchmarks listed below.

GPA 2.8 out of 4.0 and **one** or more of the following benchmarks:

- Advanced Placement Exam (3+)
- Advanced Placement Course (A, B or C)
- Dual Credit College English and/or Math (A, B or C)
- College Developmental/Remedial English and/or Math (A, B or C)
- Algebra II (A, B or C)
- International Baccalaureate Exam (4+)
- College Readiness Placement Assessment*

* Standardized Test benchmarks (minimum score)

SAT Exam: Math (TBD) | Reading and Writing (TBD)

ACT Exam: English (18) | Reading (22) | Science (23) | Math (22)

Additional Factors that Contribute to College Success

Earning As, Bs, Cs; FAFSA Completion; Enrollment in career pathway course sequence; College Academic Advising; Participation in College Bound Bridge Programs; Senior year math class; Completion of a math class after Algebra II

Career Ready Indicators

Students are **Career Ready** if they have identified a career interest and meet two of the behavioral and experiential benchmarks listed below. In addition, students entering the military upon graduation must meet the passing scores on the Armed Services Vocational Aptitude Battery (ASVAB) for each branch of the military.

Career Cluster Identified and **two** or more of the following benchmarks:

- 90% Attendance
- 25 hours of Community Service
- Workplace Learning Experience
- Industry Credential
- Dual Credit Career Pathway Course
- Two or more organized Co-Curricular Activities

College Ready Indicators

Students are **College Ready** if they meet either the academic indicators **OR** standardized testing benchmarks listed below.

Academic Indicators

GPA 2.8 out of 4.0 and **one or more** of the following academic indicators:

- Advanced Placement Exam (3+)
 - Advanced Placement Course (A, B or C)
 - Dual Credit College English and/or Math (A, B or C)
 - College Developmental/Remedial English and/or Math (A, B or C)
 - Algebra II (A, B or C)
 - International Baccalaureate Exam (4+)
-

Standardized Testing Benchmarks (minimum score)

- SAT Exam: Math (530) | Reading and Writing (480)
 - ACT Exam: English (18) | Reading (22) | Science (23) | Math (22)
 - College Readiness Placement Assessment
(determined by post-secondary institution)
-

Additional Factors that Contribute to College Success

Earning As, Bs, Cs; FAFSA completion; enrollment in career pathway course sequence; college academic advising; participation in college bound bridge programs; senior year math class; completion of a math class after Algebra II.

Career Ready Indicators

Students are **Career Ready** if they have identified a career interest and meet two of the behavioral and experiential benchmarks listed below. In addition, students entering the military upon graduation must meet the passing scores on the Armed Services Vocational Aptitude Battery (ASVAB) for each branch of the military.

Career Cluster Identified and **two or more** of the following benchmarks:

- 90% Attendance
 - 25 hours of Community Service
 - Workplace Learning Experience
 - Industry Credential
 - Dual Credit Career Pathway Course
 - Two or more organized Co-Curricular Activities
-

Strategic Implementation of College and Career Readiness Plan

Collectively developing and implementing a strategic plan to enhance all students opportunities to access and earn early college credit to smooth the post-secondary transition, increase year one persistence, and ultimately facilitate greater completion rates.

- Advance Placement Transcription
- Dual Credit Expansion
- Career Cluster Identification

College Completion Remains an Economic Development Imperative

- People with a High School education are unemployed at a 9.4% rate (Department of Labor Statistics)
- People with a College Credential are unemployed at a 4.1% rate (Department of Labor Statistics)
- Associate Degree holders earn \$1.7 million more over a lifetime than those holding only a high school degree (Northwest Educational Council for Student Success, 2012)
- Children raised in a household of a college degree holder are 75% more likely to earn a degree, which can close the household economic gap for generations (Northwest Educational Council for Student Success, 2012)
